*Home by Baja creates custom one-of-a-kind products for its clientele.*

Just the word “Baja” evokes images of relaxation, of sea breezes wafting over pristine beaches before returning to the sapphire waters. Lucky for San Diego, Home By Baja echoes the region’s feeling of harmony in its custom home furnishings.

Home By Baja is the haute couture of home decorating, offering custom-made Hacienda, traditional and contemporary furniture to suit its customers’ every whim. Its Miramar showroom provides inspiration, exemplifying that nearly anything is possible when it comes to custom design. In fact, many of the store’s most impressive works were dreamed up by its clients.

The showroom houses the brand’s signature doors, which feature stunning woods, scrolling iron and a host of finishes that truly make your front door masterful. The retail site also hosts endless design possibilities, showcasing furniture, stained glass, frameless showers and mirrors, interior and exterior lighting, window treatments and ceramic tiles. All pieces are made in Baja California, Mexico.

No matter what your style, Home By Baja does just that—it makes you feel that you are home on the peninsula, indulging in comfort on your own terms, *“Bringing Baja to you.”*
